

13 October 1960

Mrs. Frances Lucas, *Carol*

Dear Mrs. Lucas;

Thank you for your recent letter expressing your interest in becoming better informed about the nature of Communism.

We are grateful for your thoughtfulness in writing us. May I suggest that making yourself aware and reporting to the proper authorities any information which may bear on our national security is an activity quite appropriate for someone like yourself with a strong patriotic motivation.

Sincerely,

SIGNED

Sept. 3, 1960  
Dear Sirs:

I have been reading so much of the news concerning the activities and the methods being used by our enemies, namely Communist activities and their infiltration of our Churches and Schools etc:

I am wondering what a housewife might do to help combat these things? How could one help to recognize their tactics etc? Is there a place where one could go to learn about these subversive activities going on everywhere? Is there anything that an ordinary housewife might be able to help do to help my country?

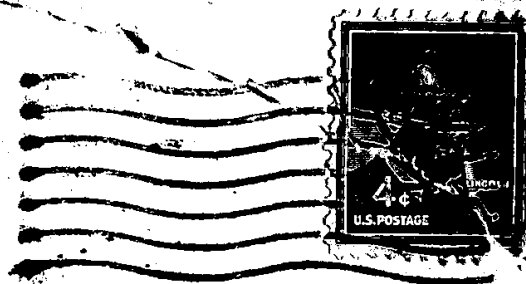

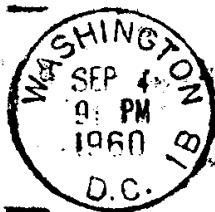

Maybe if one knew what to do we could gather information or anything else I would be willing to do. I feel if people were better informed as to how our enemies are working, we would all be more on the alert and not be taken in so easily.

Is there anyway or anything that a housewife can do to help? STAT

Sincerely,  
Mrs. Frances Lucas, III
